

KMtronic relay boards & i2f Webrelay plug-in

- KMtronic relay boards are hardware for accurate switching between diverse voltage levels.
- --> i2f Webrelay TCP/UTP, separate plug-in for i2f MediaConnector
- --> i2f Serial, standard plug-in for i2f MediaConnector

Features:

- Each relay has a LED to indicate when it is operational.
- Relay outputs can be used to switch ON/OFF lights, motors and other devices.

Specifications:

Relays have Normally Open (NO) and Normally Closed (NC) Contacts, each capable of max. switching:

- 12VDC / 15A
- 24VDC / 15A
- 125VAC / 15A
- 250VAC / 10A

Power:

Requires an external 12 volt DC / 1000mA supply
